Frequently Asked Questions In this section, I have discussed some frequently asked questions by people about this modded version. Read all these questions to clear all the doubts about the game! Yes, download it from our website and use it without any worries. No, It requires no cost if you download it from our website. It depends upon different modes. You can play it offline and online. Download Now Final Thoughts (Conclusion) So friends! I have tried to cover all details about The Catapult 2 Mod Apk. This modded version gives you all unlocked premium features. So tell me when you're enjoying all these features? Feel free to ask anything about this Mod Apk! Thank you! The Catapult 2 MOD APK (Unlimited Money) is a game for mobile of tower defense genre. The game is released by the publisher BYV. It can be seen that stickman is the style of this publisher when they have produced many stickman theme games like The Ninja, Archers, The Spearman, etc. Their games often emphasize tactics with simple 2D graphics. Introduce about The Catapult 2 The first part, called The Catapult, has reached over 20 million downloads on Google Play. Following that success, part 2 of the game was officially launched with many new features compared to its predecessor. Addictive tower defense game Like the previous section, The Catapult 2 tells about brave warriors, who defended the kingdom alone from the attacks of stickmans. The tower with one archer is the only thing standing between your enemies and your kingdom. If you fail, they will attack your kingdom and destroy everything you love. The gameplay of The Catapult 2 is not like other traditional tower games. Its gameplay has a combination of tower defense and trajectory shooting game. Just like when you play Angry Birds, your mission is to protect the bird kingdom instead of attacking the blue pigs. With just one finger, you can adjust the direction, then pull back to adjust the force bar. Release the bullet and it will crush the enemy. You need to know that this is not a turn-based game. That means you can attack enemies constantly, and so do they. New weapons, new enemies In The Catapult 2, your enemies have been significantly upgraded in terms of strength. They become stronger, defend better and increase the number of enemies follow each level. To ensure balance, the game offers you a variety of powerful weapons. Besides available weapons, you can use weapons like thunder, cannon, arrow... In defense, the magic shield is a great choice to help you protect the tower for a period of time. Don't forget to upgrade your warrior. If he dies, the tower will no longer work without a guard. His hat, armor, and strength can be strengthened to make him stronger. Upgrade the tower At first, you start the game with a rudimentary wooden tower. After that, it can be upgraded to stronger towers such as stone towers, iron towers, etc. This is necessary when you play Campaign mode because your enemies will strengthen over time, you need enough strength to fend off their attacks. Besides, you can buy special skills such as summoning thunder, hourglass... There are many ways to make money in the game. You can play the Campaign mode, complete quests, receive daily gifts, watch ads... However, the upgrade requires a large amount of money and it takes a lot of time to get the required amount. Do not worry if you don't need to spend your real money to buy In-app. MOD Feature Unlimited Money: We made a mod version of The Catapult 2 that give you 999999999 gold as soon as you open the game. With the available "financial potential", your kingdom will be equipped with the most powerful weapons. No enemy can defeat you. Download The Catapult 2 MOD APK for Android In terms of graphics, The Catapult 2 owns 2D graphics with bright colors. Stylish horizontal screen familiar with simple graphics, the game size is not too large and easily run on many Android devices. 90 levels are not too many, but it is enough to challenge any player. There are still some things that need to be completed, and the publisher always tries to bring you the best experience through updates. Finally, are you ready to fight and defend your kingdom? Catapult is one of the favorite childhood games of most boys. But you can enjoy this game online now. Catapult 2 is an exciting action game in which you fight against your enemies using a catapult. This game is excellent if you want to kill your time doing something interesting. Invalid url The game has different levels in which you use a catapult to fight and destroy your opponents. You aim to protect your kingdom from all the enemies and beat them to create a peaceful environment. This game is famous all over the world among players and has a rating of 4.3 stars. People recommend this game to play, and you must give it a try to this game at once. The app is so simple in its user interface and highly optimized. You can download this game easily on your ordinary android phone as it does not require a high-end device. But your phone must have enough storage of 168 Mb to run the game. Otherwise, you will not be able to enjoy the game. The Catapult 2 Apk is the best game in its standard version. The game has plenty of features to use for free, but users cannot access the premium features as they need money to be unlocked. If you want access to the game's premium features, you need some real money. The game has different environments to fight against the enemies, but you have to open them one by one. You cannot access all of them at once. Certain ads and bugs in the standard version of the game will interrupt you a lot. The Catapult 2 Mod Apk is the modified version of the app in which you can enjoy the whole game for free without making any purchase. If you want to enjoy all the premium features of the game for free, then you must try our mod version that offers all the epic features free of cost for its users. You have a lot of money that you can use to buy different stuff and upgrade your catapult. Players will never face any ad in the game, so they can now play it quickly and efficiently. Multiple levels are present in this game to play, and players can enjoy them more. There are different types of lands in the game, along with various levels at each land. Around 500 plus levels are available in the game to play and attack the enemies. As you jump to the next level, it will become more difficult than the previous one. You must be careful to attach the enemies as soon as possible. Otherwise, they will kill you.You can compete against the enemies by using weapons; otherwise, you have no other option than to save your castle. The mod version of the game offers different kinds of weapons that users can you attach to their enemies and kill them. You must be ready with the most advanced weapons because every level is tough from the previous one.Users can easily play the game for a long period without getting bored. You must pay proper attention to killing your enemies. The control system of the app is so simple and optimized that users only need to use their fingers slightly on the screen and move the arrow towards the enemies to save their castle. If you do not hit your enemies appropriately, then you are given a chance for your enemies to destroy your castle. So be attentive during gameplay. Your kingdom is in danger, and you are the only hope to save it from enemies' attacks. Your enemies will try their best to destroy the kingdom, and you must fight them and spoil their bad intentions. Use all of your talent and intelligent skills to play the game in a better way and kill enemies.It is the most demanding game feature everyone desires to have. The mod version has unlimited money to use, but in the standard version of the game, users will collect the money by completing the missions, and then they can use this money to buy other things. It will take a lot of your time to collect money. But the mod version provides it to you for free. The game is too easy to download from the app store. Users can also download the mod version of the game from our website to enjoy more features.In most cases, users desire to play and enjoy the game from every angle, but occasionally they cannot because some premium features are locked. You can eliminate this problem because the mod version offers you all the unlocked premium features, and you can use any level of your choice at any time. Users can play the game as often as they want now that there are no limitations. The catapult 2 mod Apk is the best way to kill time if you are a game fan and want to do something interesting in your free time. There are so many levels and features of the game to explore. Give this game a try, and you will love it. Users love it, and it has a high rating. Yes, users can play the mod version of the game offline. Q. Is the mod version of the Catapult 2 safe to use?Yes, there is no virus in the mod version of the game. You can download it from here. Page 2 The server we use is a high quality, dedicated type that allows distribution of huge volumes of files to all users. Therefore, we are confident that the download speed of Apkbig is not inferior to any other storage system. In case the download speed is slow, please check your bandwidth.
